

BIGTIME POS

Item 11 Compliance Sample

Screenshot of the Online/Offline Indicator (if applicable)

Requirement covered:

"Screenshot of the Online/Offline Indicator (if applicable)."

Prepared on: April 14, 2026

System: BIGTIME POS

Compliance Statement

1. Online indicator screenshot attached: **YES (Network Ready)**.
2. Offline indicator screenshot attached: **YES (Offline Mode)**.
3. Both screenshots are from the same BIGTIME POS login screen context.
4. This file is prepared for Item 11 earmark in Annex B submission.

Evidence A - Online Indicator

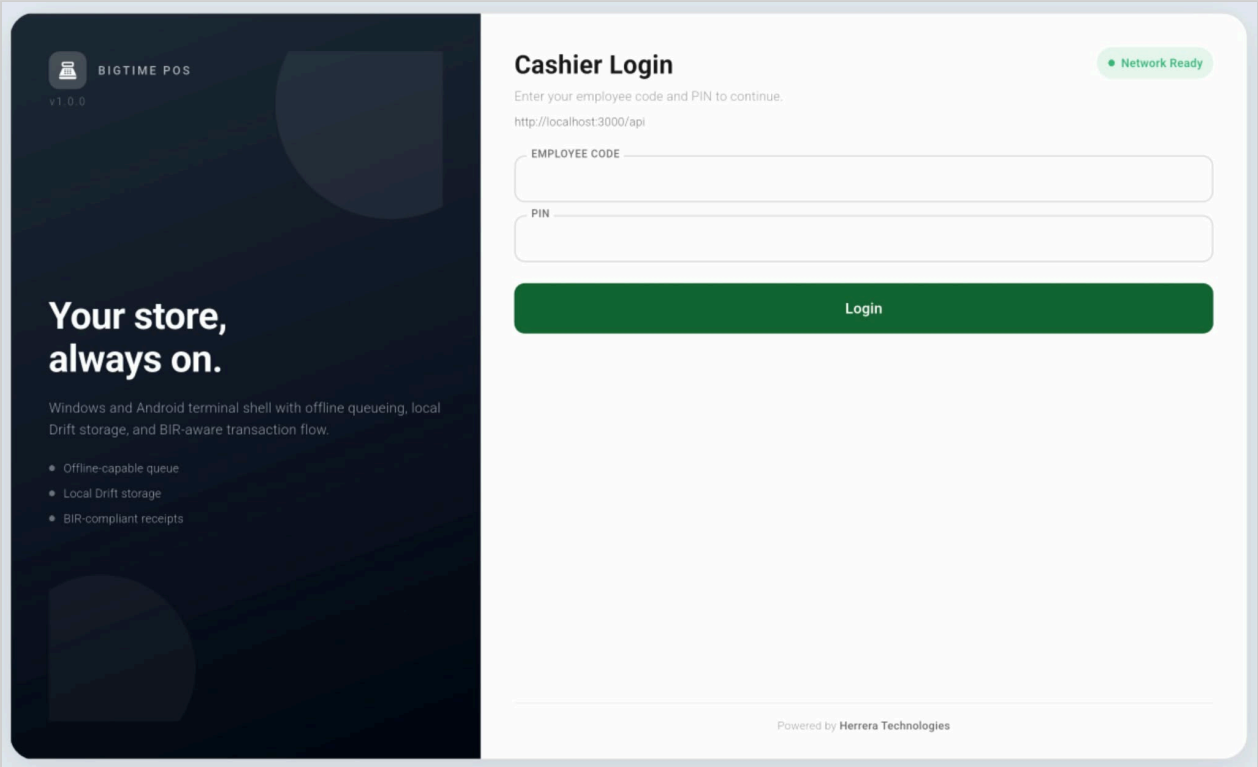

Figure A: ITEM11-ONLINE-01 (Network Ready).

Evidence B - Offline Indicator

The screenshot displays the BIGTIME POS interface in Offline Mode. On the left, a dark sidebar contains the logo, version (v1.0.0), and a message: "Your store, always on." Below this, it lists features: "Windows and Android terminal shell with offline queueing, local Drift storage, and BIR-aware transaction flow." and a bulleted list: "Offline-capable queue", "Local Drift storage", and "BIR-compliant receipts". The main area is titled "Cashier Login" and includes a status indicator "Offline Mode" in an orange pill. It prompts the user to "Enter your employee code and PIN to continue." and shows the URL "http://localhost:3000/api". There are input fields for "EMPLOYEE CODE" and "PIN", followed by a green "Continue Offline" button. At the bottom, it says "Powered by Herrera Technologies".

BIGTIME POS
v1.0.0

Your store, always on.
