

BIGTIME POS

Item 12 Compliance Sample

Machine Brochure / Operating Manual (if applicable)

Requirement covered:

"12. Machine brochure/ Operating manual, if applicable;"

Prepared on: April 14, 2026

System: BIGTIME POS

1. System Overview

BIGTIME POS is a point-of-sale system composed of POS Terminal App, Back-office Dashboard, and Central API/database services.

- Cashier login and shift handling
- Item selling and payment capture
- SI/OR receipt issuance and printing
- Discounts and adjustments (void/return/refund workflows)
- Inventory and reporting management
- Online/offline operational continuity

2. Minimum Operating Requirements

POS Terminal: Windows or Android device, printer connection, and local storage for offline queue.

Back Office: modern browser and network access to API/server.

3. Basic Operating Procedure (Cashier)

1. Launch BIGTIME POS terminal application.
2. Confirm indicator: **Network Ready** (online) or **Offline Mode** (offline).
3. Enter employee code and PIN to log in.
4. Open shift (if prompted).
5. Scan/search items and build transaction.
6. Apply discounts where applicable.
7. Select payment method and confirm payment.
8. Print/reprint receipt as needed.
9. Perform end-of-shift procedures and generate X/Z reading.

4. Online and Offline Operations

Online mode: Transactions are sent to server services in real time and records update immediately.

Offline mode: Transactions are queued locally and synced after reconnection.

5. Daily Operations and Reports

- X-Reading (cashier accountability)
- Z-Reading (end-of-day report)
- Sales summaries and discount breakdown reports
- Adjustment-related transaction documents (void/return/refund)

6. Safety, Backup, and Continuity Notes

- Keep user credentials confidential.
- Restrict terminal usage to authorized users.
- Ensure regular backup of server data and report exports.
- Follow SOP for power interruption and network outage handling.

7. Troubleshooting Quick Guide

1. Cannot log in: verify credentials and server/network availability.
2. Printer not printing: check power, connection, paper, and retry print.
3. Network unavailable: continue in offline mode and monitor sync after reconnect.

8. Document Purpose

This operating manual is prepared as the Item 12 attachment for Annex B submission and serves as a practical usage reference for BIGTIME POS operation.
